

Technical Superintendents

Ship owning company Uni-Tankers A/S is expanding and in that respect we are looking for three committed and responsible Technical Superintendents to our head office in Middelfart. You will refer to the Technical Director, and your primary responsibility will be technical inspection of a group of oil and chemical tankers in the size-range of 5,000-25,000 dwt.

About the position

Essential for the job is to work within our technical department and be responsible for the daily supervision and inspection of our vessels. This includes:

- Budget control
- Planning and arrangement of repairs and dry-dockings
- Maintaining technical documentation
- Purchase planning with our Purchase Manager
- Reviewing and following up on vessels' reports

The key indicators for our coming team of superintendents will be: emission footprints and cost savings, together with the vessels' reliability. Other criteria of success will be optimisation of the technical operation incl. purchase, certification/classification, QA/vetting in accordance with company-, customers-, class-, ISM-, and TMSA-requirements.

You are expected to participate in business travels in connection with vessel inspections and dry dockings. Planning to be aligned with office.

Your qualifications:

We are looking for a person with maritime background and experience as Marine Engineer in chemical and oil tankers, Chief Officer or Master. You must have the ability to express yourself verbally and in writing, both in Danish and English.

Who are you?

You have experience from another similar job, you are structured and know what is essential regarding safe ship management in a modern tanker fleet. You are able to take action and make independent decisions but at the same time have good interpersonal skills.

About Uni-Tankers A/S

Uni-Tankers A/S is a well-established and fast growing ship owning company operating 11 oil/chemical carrying vessels. An upcoming merger will increase our fleet of modern larger vessels to 35, and further an expansion of our organisation to approximately 40 dedicated employees. Being a responsible and conscious company we strive towards safety and environmental excellence – meaning no accidents, no harm to people and no damage to the environment.

Uni-Tankers A/S is anchored in USTC, with a 2010 revenue of DKK 51 billion and 870 employees world-wide one of Denmark's largest companies.
